

Billing and management of Telephone services in Hotels, Clinics and Care homes

from 32 extensions

TaxLine IP stores full details of all inbound and outbound calls for later billing and analysis, thanks to a wide range of reports.

TaxLine IP comes with an integrated keyboard and display, and connects to any PBX via IP or serial port. The printing of tickets and reports may be local or via LAN.

Benefits

Easy to install and easy to use

Stand-alone unit, no PC required

Printing via serial port or LAN
